Where We Are

From the CEO's Desk

D-19th Arkitekts is an indigenous Architectural firm with a vision to operate in the International scene.

Our portfolio not only highlights our optimal blending of form and function; but also showcases our relentless effort to stay ahead of the trends in sustainable building techniques & technology.

A majority of our team members are made up of hybrid professionals who utilize their knowledge & experience in several industries to find innovative ways to further enhance the built environment.

At D-19th Arkitekts, we are not just a firm...we are a powerhouse of ingenuity and precision, bringing to existence minimalist or audacious design concepts.

We are constantly finding ways to work smarter through technology, better tools and new thinking; in order to serve you beyond your expectations as we look forward to helping you achieve your Real Estate goals.

Who We Are

As a design & construction firm, D-19th Arkitekts Limited works collaboratively to bring your project to success by providing our customers with reliable personnel to enhance productivity. We strive to deliver high quality services aligned with your goals.

We continuously seek better tools to improve architectural and engineering delivery for real estate development projects. Architectural & Construction plans and other related documents produced by us are thoroughly inspected to assure quality. Our associates are professionals with over 10 years' diverse experience in various disciplines of architecture, engineering and real estate development.

Why Choose Us

With D-19th Arkitekts, you get all the services of a traditional architectural & construction firm, as well as best practices in experience and efficient delivery adopted from other closely related industries.

Value

Our principles are based on a commitment to satisfy the requirements of our clients. We achieve this by striving for continuous improvement and excellent quality standards. We attain timely delivery and compliance with cost & quality specifications by using our highly efficient work methods guided by our obligation to environmental and occupational health & safety.

Team

We utilize our requisite skills, experience and resources to efficiently undertake different projects. We meticulously study our clients' requirements, advise where necessary, and then effectively plan the works through to execution & delivery.

Our multi-talented team is guided by our four core principles:

Encourage Collaboration | Demonstrate Agility
| Embrace Accountability | Perform with Integrity

Resources

We have a range of construction equipment in the regions we operate. This enables us to quickly mobilize within these regions and meet the varying schedule requirements of our different projects.
